THERMAL BREAK
EFFICIENCY
& STRENGTH

BETTER
VIEWS WITH
MORNING
COFFEE

Standard Features

- Colors: White, Black, Tan, Bronze, and Silver
- Polyurethane thermal barrier that separates the interior from the exterior that dramatically reduces heat or cold transfer.
- High-density weatherstripping with mylar fin barrier to better seal out air, noise, and water.
- Aluminum anodized sill that never rots or needs painting.
- Triple layer Low E 7/8 insulated glass that blocks more heat and UV rays than hard coat Low-E glass.
- Four heavy-duty steel ball bearing rollers on operating panels instead of two like you find on some brands.
- Interlocking panels for added strength and wind performance.
- Installer friendly reversible door panels for either XO or OX operation.

Available Options

- Custom Sizes
- Keyed Locks
- Internal Grids
- Nailing Fin & Flush Fin
- Obscure Glass
- Aluminum Screen
