DOORGLASS FRAMES

DOORGLASS OPTIONS

For 80 years, ODL has been manufacturing top-rated doorglass framing systems, and we offer the widest array of doorglass frame styles, colors and materials in the industry to meet specific needs.

Innovation

At ODL, our mission is to be the industry leader in innovative doorlight frames, tackling challenges that others shy away from. We've made significant strides with ZEEL® and our latest offering, Keystone. ZEEL® features a sleek, versatile frame that eliminates screws and screw hole covers, thanks to its innovative clip system. Resolve® Sealant replaces messy wet glaze and maintains its integrity over time. The Keystone frame, designed for impact resistance, utilizes a lightweight composite material without compromising performance.

Design

Whether you choose to highlight a specific architectural style with our Spotlights® line or want the sleek, minimal look of ZEEL®, ODL has the right frame to complement your design choice - classic craftsman or contemporary or somewhere inbetween.

Performance

Rigorous third-party testing assures that product performance meets design intent. ODL frames are tested to meet and exceed the North American Fenestration Standard (NAFS) for doors, including structural integrity, resistance to water penetration, air leakage and forced entry.

WHY ODL | DOORGLASS FRAMES

DOORGLASS PRIVACY

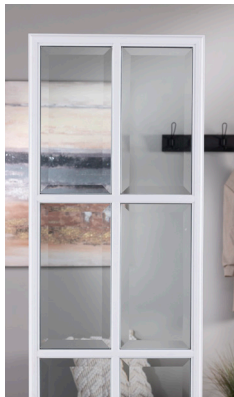

As ODL continues to add a variety of doorglass designs with different types of glass, our customers are asking questions about how we determine our privacy levels. With no industry standard, every manufacturer is free to determine what the opacity or privacy level is for their doorglass. We are leading the way with a standard test using a spectrophotometer to produce an objective number for every glass, every time.

We have eliminated arbitrary numbers and simplified our privacy levels to five categories: none, low, medium, high and maximum. We have created a Privacy Rating scale to visually show this for every doorglass design:

PRIVACY RATING

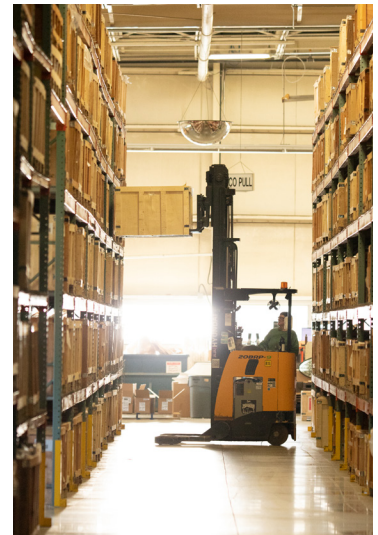

The examples below show a doorglass design that falls into each one of the five privacy level categories or go to odl.com/catalog:

IMPACT RATED SOLUTIONS

If you live in a zone with severe weather and high winds, your entry door is more than just a design element. During a hurricane, it can protect your family and home from harm. Impact rated door systems and doorglass are essential to your security and peace of mind.

At ODL, we've been fabricating severe weather and impact products for decades. We're proud to offer builders, renovators, and homeowners impact-rated door systems that are durable, beautiful, and most importantly, able to protect their homes from severe weather.*

IMPACT RATED GLASS

ODL's Decorative, Privacy + Textured, Classic, and Blinds + Glass doorglass is sealed between Impact Rated Laminated Glass on the exterior, and Tempered Safety Glass on the interior.

Doorglass is made with tempered glass, which breaks into tiny pieces during an impact. Impact-rated laminated glass, also called severe weather

glass or hurricane glass, is a specially fabricated type of glass created by laminating a plastic (PVB) film sandwiched between two pieces of tempered glass. Should the glass break when impacted, the film holds the glass together and prevents debris from entering the home.

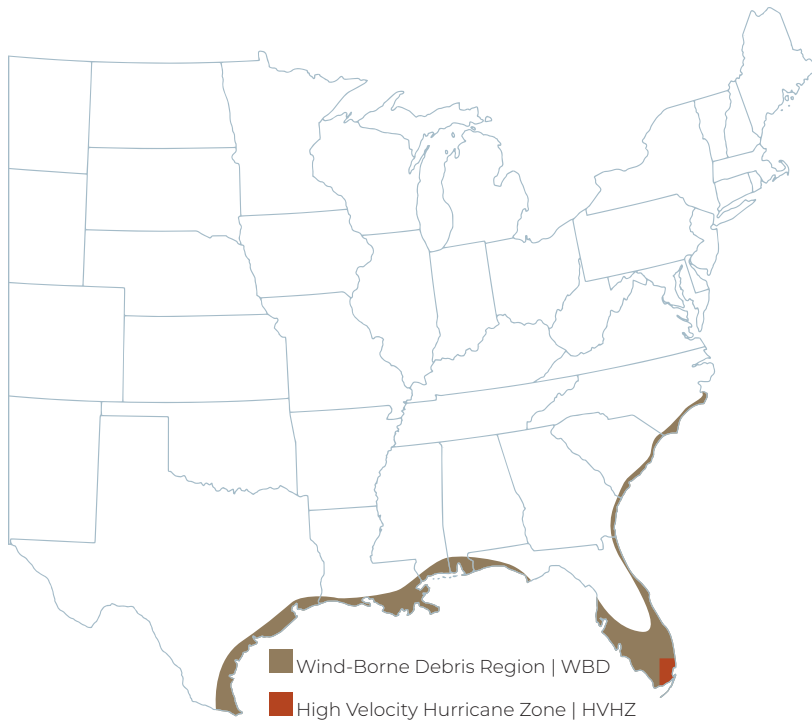

ODL Impact Rated Doorglass Solutions

DURABLE, HIGH-QUALITY MATERIALS

Because we use high-grade plastic, aluminum, and laminated glass for our severe weather doorglass and frames, our impact rated products are engineered for the toughest weather conditions. You never have to worry about our product's integrity compromising the strength of your door's system, creating the security you need in almost all geographic locations.

BEAUTIFUL, FUNCTIONAL DESIGN

Functional products and systems should be able to protect your home without sacrificing your taste and style. Our products are engineered to protect and designed to match the style of any home. And unlike storm shutters, installing ODL Impact Rated Doorglass on your home invites daylight into your home while protecting from severe weather.

NEW KEYSTONE IMPACT RATED FRAME

- Flat, 3/8" frame profile with no visible screw hole plugs, cover caps create a seamless finish
- uPVC vinyl material is easier to install than typical aluminum frames
- Co-extruded seal stops debris from collecting between the frame and the glass or door
- Ships with Dow 995 pre-applied from the factory
- Meets Florida Severe Weather requirements of +/- 60 DP Design Pressure

INDUSTRY-LEADING CERTIFICATIONS

Our products are engineered, tested, and certified to meet the Florida building codes approval. Individual components undergo extensive testing and analysis to ensure their efficacy as individual components and as part of a system.

ADDED VALUE, NOISE SUPPRESSION

ODL Impact Rated Doorglass provides you with a quieter solution over storm shutters, carrying a sound transmission class rating up to 39 dB for a level of sound suppression that is welcomed year-round.
